Whispers from The Brighter World

Saturday, April 8, 2017 – 10:00 a.m.

Every day it is necessary to strengthen oneself in the face of life; what it has in store is not always easy. Following a spiritual path allows one to take stock in many circumstances, to orient oneself accordingly and differently. Sahaj Marg opens up perspectives on a life that is more centred upon this search for a sacred space within, where faith and a real search are strengthened, supported by a method much more evolved than it appears. The spiritual is a sacred space; who truly goes deeply into it? A spiritual Master has this opportunity; does he really measure its effects? Nothing is simple in this world, but fervent beings manage to find the way, to fortify themselves before the Eternal, in order to acquire the means of deepening their aspiration to the Divine, without limits.

Finding one's way, following it with love, is decisive in a life. Spirituality provides access to a sacred space where the ultimate goal becomes a reality. How many lifetimes it takes to become aware of this; Sahaj Marg is a precious help, you can be sure. May all be blessed and greatly strengthened, to attain the best possible.

Special blessings to all.

Babuji
