Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Monday, April 10, 2017 — 10:00 a.m.

My dear daughter, your steadfastness and personal commitment have made it possible for these messages to become a real asset for our Mission, and so will they remain.

We are following this Mission and carrying it with so much love. Successive Masters enabled it to be built, and to establish itself properly.

This high place of Hyderabad carries a magnetic charge constituting a real attraction. Our dear son Kamlesh has made the right choice. Moreover, he will know how to give it the importance it deserves. That place is rich in many respects; the future will reveal its particular qualities. Sources are a part of it, and they will reveal themselves in due course. India is and will remain the strong point of spirituality and the central axis of Sahaj Marg. This path still has much to reveal; its chosen Master is working in this direction more and more to lead it to the high point of its action.

To all, peace and bliss on the blessed path of Sahaj Marg.

Babuji Maharaj
