Whispers from The Brighter World

Tuesday, April 11, 2017 – 10:00 a.m.

Long is the path of life, where nothing is simple, ever. To acquire within oneself a space of spiritual life constitutes a very precious possession; it becomes clearer from life to life, to reach the point necessary for the evolution of each one.

Sahaj Marg is not given in vain to this world; it constitutes a way of access rather simple but far more effective than it appears. It offers a number of resources that will reveal themselves in the future. This Hyderabad ashram will be decisive in this advancement, since its numerous possibilities will prove very constructive, as much on the material as on the spiritual plane.

The Great Beings of the past are united in this sacred journey where the essential elements remain active and constructive. Great and beautiful souls are devoted to serving this uncommon way. The future will amaze with its revelations concerning this spiritual path, very active in its effects. All is for the better – may the best be for all, and most especially for our dearest son Kamlesh.
