Whispers from The Brighter World

Thursday, April 13, 2017 – 10:00 a.m.

The fate of each one is written, none can get around it. From life to life it becomes clearer and leads the being towards his or her destiny – that which, whether one is conscious or not, directs one's life, present and future.

Each step is necessary; people manage sometimes to get used to it, and other times not. Surrender to the inner Master is a strength that is given and constructive, so that despite inevitable drifts, the best happens. The practice of Sahaj Marg brings a great deal – much more than it seems. A life is built little by little, according to the necessity of the moment, but nevertheless within the framework of this unavoidable destiny. Following a spiritual way clears this path; from life to life the real reasons are clarified and they guide the being towards reality. How to know, foresee, and above all imagine the unfolding of events in this epic destined to attain this higher level, where each one aspires to build and elevate themselves for the best that can be. Sahaj Marg is the simple way, yet so very just and productive that no one ever regrets it once the best is achieved, reality is established, everything is consolidated, and new spaces are well defined.

To all, faith and courage – the ultimate goal is in view and it can be reached, you can believe it.
