Whispers from The Brighter World

Wednesday, April 19, 2017 – 10:00 a.m.

The messages have nourished many hearts; they produce a particular vibration whose memory will be retained over time. Like all sacred writings, they have an action that extends beyond human perception. In the past, plagiarism has not benefited from the effects of grace either. A spiritual Master is endowed with powers he himself cannot measure.

His action is nonetheless very effective, which is not easy to understand or especially to evaluate. Sahaj Marg benefits from special features, those that fortify the abhyasis and provide them with a precious asset that the future will particularly highlight. The vibratory level is changing and growing stronger for the benefit of our practitioners.

In this action, Sahaj Marg is unique; how can one evaluate its real possibilities, which are unprecedented.

We are repeating ourselves, but how can we do otherwise? This action is limitless, as are all the blessings generated by grace, from which Sahaj Marg benefits fully. May all be blessed and strengthened in accordance with our wishes.
