Whispers from The Brighter World

Saturday, April 22, 2017 — 10:00 a.m.

Sahaj Marg will surprise people in the future; for a long while it has been holding secrets that will be revealed at the opportune time. The Egyptians were very advanced in their knowledge; many truths will emerge into consciousness, triggering an unprecedented progress. Our path itself will reach a level that is being repositioned today to foster a desired expansion long foreseen by the hierarchy of Masters. Many events will take place and bring to light that which has been planned for a very long time. An eternal renewal is necessary in order for the higher powers to accomplish what must be fulfilled. They cannot depart from these principles; no one can evade them.

To all, faith and perseverance; time will prove to be the great magician capable of astonishing poor human beings — beings who are attentive to the creative power of the spirit. This is how it is.
