Whispers from The Brighter World

Sunday, April 23, 2017 — 10:00 a.m.

Continuity and effort are two constructive assets that we cultivate for the best possible result. Our abhyasis conform to our wishes, to what we consider to be important, and one might say essential, in such a spiritual investment. This practice is very rich in effects, as confirmed by what has been envisioned since the beginnings of this Mission.

Many changes will occur in this world, and they will only emphasise the accuracy of our predictions for this way of the heart, one that is in a certain manner unique. These messages also have a significant role; the future will reveal many essential aspects of this whole process. These substantial changes will occur in the future, resulting in a truth being finally revealed to humans.

Blessings to all.
