Whispers from The Brighter World

Monday, April 24, 2017 — 10:00 a.m.

All preparations are slow and lead to the desired goal when needed. The high place of Hyderabad can inspire people to dream. It is a focal point for projects and will indeed become the Mission's flagship ashram. It is vested with a special charge — it will astonish people and take on its full scope in the future; thus will our wishes concerning this great project be fulfilled. It will surprise people with certain aspects that will unfold in the future. Our dear great son will do the needful for everything to be set up according to divine plans.

The greatness of this path will be surprising, and its action will intensify, leading to the best — as desired by the hierarchy of Masters who are very favourable to this. The scope of its action will be surprising — such is life; to the divine powers nothing is impossible.

May the best take place and facilitate an unprecedented expansion of this way of the heart.

To all, blessings.

Babuji Maharaj
