Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Friday, April 28, 2017 – 10:00 a.m.

These birth anniversary days are blessed moments in our Mission. They attract the attention of the Masters and allow a great many abhyasis to focus on this transmission, which is extraordinary and especially effective. It is not easy for them to evaluate it, but this egregore has grown considerably over the years.

The Master Kamlesh will particularly leave his mark on the Mission; each Master has done so in his own way. Today the Mission is adapted to the vibration of the moment; being very active, it guides our brothers and sisters who are truly calling for it. The years will consolidate the action of this way of the heart; the best is yet to come. Sahaj Marg will mark this time significantly, although with considerable discretion.

Special blessings to all.

Babuji
