Whispers from The Brighter World

Sunday, April 30, 2017 – 10:00 a.m.

May this very special day unite the hearts of all our abhyasis. We want the best for them, so that the divine purposes may be fulfilled. Great things will be accomplished in the future – this beautiful way of the heart will not stop amazing people and, above all, will convince more and more brothers and sisters of the importance of such a practice. Sahaj Marg will reveal itself more and more in its numerous actions. Humanity of the future will aspire to a spiritual life that is enlightened and revealing of secrets, so long hidden. Everything takes its place slowly but will come to be, here, for the general good.

May this birth anniversary contribute to it and bring the desired benefits.
May the best be for all our aspirants, under our very special blessings.

Babuji
