Whispers from The Brighter World

Tuesday, May 2, 2017 — 10:00 a.m.

It is good to see that every birth anniversary brings together the Masters and strengthens the egregore of our Mission. These are important moments, fulfilling hearts that are eager to love; there are many such hearts in this beautiful and great way whose beneficial effects are emphasised over time. Many beautiful and great things are falling into place so that Sahaj Marg can truly establish itself in the world. Our dear and great Kamlesh is inspired for the general good; his view of things is different, yet it suits the present time.

Once again, this birth anniversary has generated remarkable results — days of remembrance and action geared towards the very best. To all, faith and perseverance so that the best can be accomplished.

Very special blessings during these blessed days that mark this beautiful and great way of the heart. This is how it is.
