Whispers from The Brighter World

Friday, May 5, 2017 – 10:00 a.m.

These messages constitute a precious asset for our Mission – we can only repeat it. They carry a subtle energy that will keep its treasures over time. This way of the heart has many advantages, which will reveal themselves in the future, for good reasons.

This world is destined to change and the Mission to be restructured differently. The future high place of Hyderabad will foster an unprecedented extension. Our dear Kamlesh is preparing this advancement; we will inspire him accordingly, for the best to be achieved. These writings are not insignificant; everything is coming into place slowly and generating the desired results.

May the Sahaj Marg Mission expand ever more and win hearts, as we wish.

To all, strength and determination to achieve the best, at all levels. Very special blessings to all.

Babuji
