Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Sunday, May 21, 2017 – 10:00 a.m.

Our dear Kamlesh inspires this Mission in the right direction. In the future, it will have to meet the demands of the time. Big changes will occur and it will have to adapt, to develop accordingly. Sahaj Marg will expand more and more in the world, in accordance with the needs of the moment. Human beings yearn for the Divine, yet they must become aware of it.

Ambient negativity diverts humans from the 'true path', that of the heart in its spiritual and subtle action.

Humanity is evolving very slowly; nevertheless, it will reach a very high level, you can be sure. The new era will hold surprises, and periods of transition will be necessary to establish what has long been planned.

We are ensuring that the best may be for this Mission, so dear to us, and that it reaches the peak of its action. Our very dear son is working on this, under our blessings.

Babuji
