Whispers from The Brighter World

Friday, May 2, 2014 – 10:00 a.m.

It is long, this journey of messages, and all of us here express ourselves through these pages. Our choices are made for good reasons with regard to decisions of importance, such as the choice of our dear Parthasarathi as my successor. Everything at this level is done with a specific purpose – in particular, concerning the choice of the living Master. It is not an honorary title. Rather, it is a decisive act here below, meant for the benefit and evolution of our human brothers and sisters. The same is true for Parthasarathi's successor; we have chosen him with a view to what the Mission must become and his ability to act for the best.

Times will change, and new problems will have to be faced. A significant expansion will lead to making very important decisions for the balance and coherence of this vast and unique spiritual movement. Quietly, quite simply, things are falling into place. Managing this huge enterprise both spiritually and materially requires special abilities, whose sustainability and effectiveness we will support. The future of this Mission is our responsibility. We have been taking care of it for a long while, and we act in a timely manner, as has already been demonstrated in the past.

Here, our vision is different; it is whole, thus we are able to consider all the facets of a choice, especially with respect to very important decisions. Time will do its work; we shall always accompany the current Master and his successor, who has already been designated. Thus is the will of the higher powers made clear, and here we are

particularly attentive to them for the good of all in this spiritual Mission, blessed by the gods.
