Whispers from The Brighter World

Saturday, December 31, 2016 — 10:00 a.m.

Your fervour and commitment do not weaken, and your sincerity remains the same; why not emphasise once again what motivated our choice? Other mediums claim to take your place — they do not. In this area, the world of illusion also manages to deceive the most enlightened people; this is how it is, and we are sorry for that. This is nothing new. At one time, I too was faced with such attitudes. That does not matter; the truth in this domain always ends up prevailing, as does vigilance, which we recommend.

A new era is being prepared; we repeat this once again. The necessary foundations on which a future humanity will be able to rely are being put into place very slowly. It takes a lot of time for significant changes to occur on Earth — so has it been for a long time. Nevertheless, our Mission is advancing against all odds through this movement that is productive: the best that can be is being built at all levels. Our dear son Kamlesh is an enlightened mind. We guide him in our own manner to work in the present, according to what is being prepared for the future. Some decisions may not be understood, but this is not new. The Mission is advancing — isn't that the main thing?

May this new year leave a lasting and very positive trace on what already exists for the best that is possible. May all be strengthened and blessed.
