Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Wednesday, January 4, 2017 — 10:00 a.m.

These messages are carried by love: ours, yours and, by extension, that of all our abhyasis who are committed to this way of the heart. All this love forms a coherent whole, powerful in its effects. You can be sure that this is not commonplace. For us, we who are able to monitor the impact of these writings, the results are very satisfying. Here simplicity prevails; only love can generate such benefits. Why would so many messages have been given if it were not for the sake of something exceptional? Our Mission will carefully preserve this asset, whose importance will be assessed in the future.

Our dear son Kamlesh is the Master perfectly adapted to this pivotal period. His creativity prepares the future in which people will ask for a different way of approaching spirituality. The edifice of Sahaj Marg is solid, and the basic principles are well established in people's minds. Only a material evolution has manifested over the years for the general good. What must be done will be done; doesn't everything have its raison d'être? Sometimes it is good to innovate, to adapt to the realities of the present time, while respecting that which must be respected — namely, the original foundations of this unique path.

To all, peace and serenity on this journey towards the ultimate peace.
