Whispers from The Brighter World

August 1992

Montpellier

The Medium: Babuji, I cannot stand suffering any more!

If you were not suffering, you would do foolish things. You have enough energy since you neglect your abhyas to go do unimportant things.

(During Jean-Michel's visit, after a message intended for him, the following message is addressed to me.)

Don't worry about your body, through it I am working on your soul. You have to go through what you go through, if you want to be with me one day.
