Whispers from The Brighter World

Tuesday, November 6, 2012 – 10:00 a.m.

The divine plans are unfathomable: a person faces his or her own destiny and must come to terms with its consequences whatever they may be. Acting as best as possible, managing one's weaknesses, using one's strength – and being carried by faith – one becomes strong and surrenders to this higher power. Refusing this power does not help. So many people thus get lost on the path of life, where nothing is simple. From the humblest to the greatest, everyone is confronted with tests of all kinds.

Having faith in an ideal and acting accordingly lays a strong foundation for facing one's destiny. Following a spiritual way is a strength. Blessed are those who possess it; they embark on a journey that prepares them for this hereafter that is so mysterious to humans. This world has its laws, its strict rules, and also multiple opportunities for a being who awakens to the higher consciousness. Faith in these powerful forces opens doors, those of the sovereign Spirit – that divine energy is the bearer of all hopes.

Committed humans who engage in this way of the heart are choosing the one that suits them and meets their deepest aspirations. What we offer our abhyasis is simple and devoid of rituals of all kinds. Focusing on what is essential saves valuable time. Life is short in this regard; one should not forget it and should act accordingly.

We are seeing many young people coming into our Mission; this is promising. They bring a passion, a determination to move forward and especially to understand

the process in which they engage. Faith in our principles, eagerness to practice, to understand the journey of a soul – these open up to them a path rich in spiritual possibilities. All our abhyasis are monitored and helped to the extent of their call; we do not force anything, but the doors are wide open to all.
