Whispers from The Brighter World

Sunday, March 25, 2001 – 8:00 a.m.

Tell her, this daughter at heart, that time is precious and counted. It moves on inexorably. Every day that passes is a step towards an unfathomable future. Know how to appreciate this passing day; it carries a lot, is rich, and propels you all towards your destiny. Your life is a treasure, it is precious and a tool for you, the importance of which you cannot imagine.

Be thankful for having to live these exalting moments that enrich you beyond what you can imagine. What you are storing up is not an ordinary bank account – it is a very special one.

You manage it yourselves, you control the movements of funds and monitor the resulting dividends. You are guarantors of your own wealth. It is up to you alone to make sure that the final statement of account surprises you in the best way. You will not be able to hold anyone responsible for your overdrafts.

You made a very good investment by subscribing to our method; it is profitable to the highest degree.

The close of the accounting period will be very satisfactory, if you follow the current transactions reasonably.
