Whispers from The Brighter World

Thursday, November 6, 2003 – 10:00 a.m.

You have a special role in the long history of these messages. The small voice of your heart, full of humility, knows how to touch ours. This is actually an affair of the heart, and you should not forget that it is the guardian of a sacred temple where revelation is concealed.

The innumerable capabilities of the subtle part of this organ are little known to humans, and it is well like that. This treasure will be discovered when the time has come for humanity to access a true knowledge. Approaching it prepares open minds to have an idea of their real potential. For our aspirants, our spiritual practice provides a cleaning and a better realignment of their subtle bodies, which is appreciable in this process. This cleaning is one of the characteristics of our way, and our brothers and sisters do not realize the richness of our system, its effectiveness under an appearance of great simplicity. It is the best preparation for the coming times when only the vibratory level of beings will be decisive in the great mystical saga which is in the offing. We can not recommend enough to our brothers and sisters to practise seriously, assiduously and with confidence in their future and in the success of their search, under the higher authority of the Master whom they trust.

We put at their disposal uncommon means to attain their best capabilities. May all abhyasis be aware that they are living in a transitional period in the history of

the world, and that they should do everything possible in order to place themselves favourably in this great liberating movement.
