Saturday, October 2, 1999 - 10:00 a.m.

My dear daughter, these contacts drain you of energy and you do not have much of it. We try to compensate by helping you in your problems of health, even if the results are not obvious. You feel in your heart the joy you give me with these messages that will be delivered to my son. May this joy carry you throughout this day; don't forget that, you also, we love you."

The Medium: "Babuji, please, help Michel in this matter."

"Don't worry. He is not a dolt. He will actually end up finding a good solution. Let him take his time to translate properly; this can wait another few days. And let him not hesitate to ask somebody outside the Mission for verification if needed."
