Whispers from The Brighter World

Friday, June 8, 2001 – 8:00 a.m.

A righteous path makes its way, even when it reaches zones of turbulence like those occurring at the moment in certain countries such as France. What is planned and decided by divine law ends up prevailing in spite of everything. Our Mission is expanding in the world, not only by the grace of the Almighty, but also, it must be said, by the devotion and courage of our representatives in all the countries: these preceptors who spare no effort.

There is a thirst in people's hearts for the spiritual that, for some, can no longer be quenched by long-recognized religions. This new era that is dawning on the horizon yields a completely different aspiration, towards a profound inner transformation. This call is indefinable among most of these beings in need, but it is very powerful and can be satisfied in a path like ours or in similar ones that are deemed suitable for them. We do not claim we can answer the call of all these souls; each one finds the Master reserved for them at the precise time of their evolution.

So begins a fruitful path for that being, on which they are carried by the love and attention of the one who takes care of their heart.
