Whispers from The Brighter World

Friday, June 8, 2001 – 10:20 a.m.

My dear son, you are going to embark on a new stage of your life, the most decisive one. Your action is at its height and is part of this ascending movement, a precursor of future big upheavals and the vibratory change of this planet. Set your priorities. Make them tally with the present needs of the Mission, which must also gear up. Surround yourself judiciously; choose good collaborators and delegate in such a way as to supervise, without using up too much of your energy.

There comes a time when choices must be made. You only aspire to isolate yourself and interiorize, but the time has not yet come. Time is doing its work. Look how far you have come since your accession to this responsibility, which you excel in. Strong elements must be put in place over the coming years. More and more, the Mission will have to play its role in the world and provide a simple but effective spiritual practice. Souls are in need and will be more and more. You are the super manager of this grand investment that will reach its apotheosis in future times. We surround you with our love.

Babuji
