Whispers from The Brighter World
A Fourth Revelation

Saturday, October 23, 1999 - 10:00 a.m

There is still a long way to go before order, peace and harmony can prevail on this planet; you all are pioneers. It is up to you, through your behaviour and your comments, to sow the seeds of this wisdom that the world is longing for. Consider yourselves as holders of this divine seed.

"Cultivate beauty in yourselves so that it is reflected outside. Become luminous points that attract your brothers who are less fortunate than you in this area. That does not require proselytising. Your attitude, your serenity and your inner strength are enough to impress your fellow men who are still searching.

"You all belong to a way where you find spiritual blooming. It can only manifest itself in many circumstances through wiser reactions and through the self-control provided by your sadhana.

"You should conscientiously take part in the advent of a better world."
