Whispers from The Brighter World

A Fourth Revelation

Thursday, November 4, 1999 - 8:00 a.m.

It is correct that during the last world war, the killing frenzy of one man was unprecedented in history.

"A horrendous ego, a boundless arrogance guided him as well as the hatred rooted in his origins. This being was out of his mind, and unfortunately he continued in his madness and was followed by a great number of individuals.

"This period of history will leave an indelible mark which should always be remembered. Other genocides organised by man continue to be perpetrated without the world opinion being alarmed.

"Yet, one day, a supreme authority on the Earth will have to have the right to address such acts and to act accordingly.

"This third millennium should lead to the golden age, towards a state of harmony tinged with a true spirituality.

"Great beings will come to illuminate the world; they will have to fight against the always tenacious forces of evil.

"Your Master is working towards the implementation of this imposing project. His action covers the present and the future; high level Masters have that power. You cannot measure the importance of it, but you should know that we all are working for the good of humanity."
