Whispers from The Brighter World

A Fourth Revelation

*Sunday, November 7, 1999 - 10:00 a.m.*

*In the decades to come, great discoveries will be made in the area we have just mentioned. It will be the great reconciliation of the material and the spiritual.*

*"It is all connected; it is all explainable. The most impervious beings to spirituality will no longer be able to deny the obvious.*

*"Reality is so beautiful and so simple; it will then be easier to explain what is God. We will answer the question raised later. We will see in the meantime how to give you a sufficiently clear explanation without going into the heart of the problem – which is not really a problem. We must only weigh our words and see how to illustrate this answer so as to come nearer to reality.*

*"This truth is simple, but the facts escape human understanding.*

*"Man, from time immemorial, has a representation of God built with his reference points which have nothing to do with what it [truth] really is.*

*"Perhaps this 'uplift' will allow us, by small touches, to give you some indications which will enable you to cogitate on the issue and – according to your open-mindedness – to learn from it."*
