Whispers from The Brighter World

A Fourth Revelation

Monday, November 8, 1999 - 8:00 a.m.

Life is as One, God is life; it is in everything. It animates your body, all that moves around you, that breathes and exists.

"He is in each cell of your being; His mark is in the whole of creation, from the infinitely small to the infinitely great. Open your eyes; you will see Him everywhere and in everything.

"The whole creation is vibrated by Him. His omnipresence is one of the aspects of His manifestation.

"Man does not create anything, he does not invent anything; he is in utmost illusion about that. The divine creation is perpetually changing because it is movement, action, evolution, involution.

"All this is abstract, but being incarnate, you will never be able to penetrate all its mysteries and all its resources; they are innumerable. Each one of your breaths gives rhythm to what is transformed in you and around you. It is about a series of new beginnings, a total movement unverifiable by man. This movement is even undetectable in certain areas which man believing he knows everything, or the most enlightened seeker, cannot have access to at this stage of the evolution on the Earth."
