Whispers from The Brighter World
A Fourth Revelation

Tuesday, November 9, 1999 - 10:00 a.m.

When seeds are sown, each one of them sprouts and develops differently at their own pace, more or less effectively, but looking at the whole crop the sower can be satisfied; the whole has benefited from his good care and he can see the result.

"The heat of the sun can warm the one that is most sensitive to the cold, the most fragile one, and make of it a beautiful big plant. The more its heart will open up to the beneficial rays of love, the more the Creator will turn His attention to it with tenderness. Some will be resistant to all the care and all the attempts aimed at helping them, and they will be parched, isolated and disillusioned. He will have to be patient and wait, sometimes a very long time, before arriving at the optimal result.

"You understand what we are driving at. You have understood that being surrendered to God and that the openness of your heart to His love were your major assets; you act as is proper and you look in the right direction.

"You are on track and you will arrive at the destination; be blessed."
