Whispers from The Brighter World

A Fourth Revelation

*Friday, November 12, 1999 - 8:00 a.m.*

*You should not be mere victims of progress; you must make an effort and adapt yourselves to modern technology in areas where it can make your life easier: e.g. the fax machine that you are delighted to have.*

*"In the future you must follow this trend which will accelerate in all areas, especially in communication. All these means greatly help my son to liaise with the various corners of the world where Sahaj Marg is established.*

*"Modern man has more and more spare time; does he always use it advisedly? Many invest themselves in defending humanitarian causes; renowned personalities make use of their reputation to serve such causes. How many others do it behind the scenes to help their fellow man in different areas? There is so much to do!*

*"It is very commendable to invest oneself in the field or in any other manner.*

*"Times will come when solidarity will have to be exercised to the full. The most beautiful destiny of humanity would be that an effective mutual aid be established between men, at all levels. Such is our hope and wish at the end of this millennium, so that fraternity is no longer an empty word."*

*Babuji*
