Whispers from The Brighter World
A Fourth Revelation

Friday, November 12, 1999 - 10:00 a.m.

However advanced on the spiritual path, one must keep in touch with the realities of modern life; one does not preclude the other. A mysticism too distant from the current material life is not desirable.

"You need in this incarnation to keep your feet firmly planted on the ground; beside your spiritual work, it is necessary for your balance. We do not expect you to devote half of your time to Sahaj Marg practice, but only to comply with what we advise you to do. Apart from the time spent doing your sadhana properly, we ask you to try to attend to your affairs while remaining as much as possible in a good condition of heart remembrance – this heart where so many admirable things are achieved. You have started having evidence of what we have been putting forward for a long time. Man of the future will no longer be able to deny anything. It will be as plain as two and two make four.

"We are not yet there and you must forge ahead, not in darkness; you have passed this stage only by trusting us completely about your progress and your final achievement. Think of the chance you have!"
