Whispers from The Brighter World
A Fourth Revelation

Saturday, November 13, 1999 - 8:00 a.m.

You can quote that definition of chance we gave you a long time ago. It is and will always be topical as long as the Earthly world exists: Chance does not exist, it is an opportunity given to man for his destiny to be achieved.

"Absorb this definition, observe anything unusual happening in your life and think of what it can mean. There are signs that should be seen and not ignored.

"Life shakes you up sometimes. It makes you go in directions opposite to those you are following and that unsettles you a little, but it is your destiny which is being achieved and you cannot escape it.

"Always be surrendered to divine Providence; let our work be achieved. We always act only for your good, even if some upheavals are painful to overcome. Remain trustful no matter what happens; what is not to your liking is sometimes necessary to make you move in the right direction or for you to make a good decision. We ensure that the best happens for you, and in spite of disconcerting appearances, you must remain confident."
