The Medium: O Babuji, I miss you...

Think that I have entrusted a mission to you and that it consists of working with The Venerable.

Babuji

I understand, you are a sensitive soul, but you must forge ahead and we must proceed like this. In meditation, you should feel your inner space widen.

Think that worlds inhabit it and that you are one with them.

Let yourself melt into this upward movement. Feel the power of that vibration take possession of you. These are the steps you must take so that all the atoms in your body are in harmony. Offer no more resistance, calm your mind and surrender to the hand of God. Follow your guide, trust him completely; we are making progress step by step. My dear sister, we have set out on a long voyage, don't look back anymore.

The Venerable

The Medium: Venerable, I understand. I surrender myself to you without reserve.
