[Seminar with P]

is advancing; this is a noble soul, luminous. We are happy to see her progression. We follow her particularly. She is an interiorized silent being – transmit this to her.

This seminar at the ashram is very good for all the abhyasis attending. An event like this remotivates individuals; it should take place as often as possible. P is overburdened with work, but the importance of this place still escapes the majority, even the persons in charge.

We do understand your feeling of sadness about this situation. For the moment, that's how it is. The arrival of a dynamic element in the region would be needed, we are working on it. It takes time, my child, for things to fall into place, but this notion is not important – we have said it often enough, and the future will show it. The consecration of this place is there, the vibratory charge is important. You all mustn't dwell on the infighting that has been raging for a long time. Go beyond all these human failings. Don't see the ashram that way any longer, but as a sacred high place. Get more involved, your ardour is lacking. Don't be picky, you are all lucky to have such a place. For pity's sake, become aware of it. Many of your brothers and sisters in the world would love to have the same.

Reflect well on that. Do justice to this place, which must in no way suffer from human baseness. You will all make us happy, we are already grateful to you for it.
