Whispers from The Brighter World
A Fourth Revelation

The events occurring in your life are the milestones marking your path. In themselves they are not important; it is the way you react that shapes your spiritual personality.

"A test well overcome and accepted is very formative. Do not worry about all that can happen to you; live in the present and especially in a state of surrender – we will never say it enough. You cannot change anything about your destiny, that of your country or the Earth. You are confronted with an equation that you cannot solve.

"The fate of humanity is not in your hands. You can manage the details of your life, but in the broad outline you remain powerless in the face of events that take place and which you cannot control. Essentially, you should surrender to the Divine, to your Master, to your Masters.

"Is it not reassuring for you to know that, even if you are alone in the world, you are not ignored and forgotten? The force of destiny manifests itself to you sometimes in all its power and leaves you dumbfounded. Be always ready to accept what you deemed unacceptable. You should have blind faith in the Almighty; that will be your greatest strength."
