Whispers from The Brighter World

Wednesday, October 20, 1999 – 10:00 a.m.

Don't worry, our contacts will continue, even if their length and frequency would have to be reduced.

The source continues to flow, and one doesn't see what could stop it in the immediate future.

Even an earthquake wouldn't affect our appointment. As long as you are in a position to receive us, and you do it so willingly, we will be present at the appointment.

How can we tell you this any better? What is important is that you spare yourself tiredness as much as possible. This is why you have to delegate and not bother about the layout once the message is written. Your helpers are there to take over.

Each of them has their role and manages very well.

Each of them has their mission and the grace that accompanies it.

Be blessed.

Babuji
