Whispers from The Brighter World

Monday, October 25, 1999 – 10:00 a.m.

Do not act in haste, let this mail go and we will see what happens from there. One should never get discouraged when it's about working for a good cause. 'Do good and leave the talking to others' is a good formula. It is true that my son is swamped with work, and that he needs some serious barriers around him.

Do what you all think best for the delivery of this parcel and let's wait for the reaction, if there is one. Be at peace with all that. These are not ramblings and my son knows it well.

See how complicated and narrow-minded humans are, even when they believe they are doing right.

Continue on your road with a light heart, guided by faith and the love of God and of your Masters.

Be blessed in all your undertakings and let the negotiator be thanked for his perseverance and his 'finesse', particularly in this circumstance.
