Whispers from The Brighter World

Friday, November 5, 1999 – 10:00 a.m.

Whatever the title you give to this new series, it will symbolize the love we have for you all. This collection of messages is the fruit of the special relationship we have with our preferred scribe.

Those are two good reasons for its existence; certain gifts are given with a precise aim. As far as you are concerned, the purpose of all this was to enable you to fulfill this function by letting us use your channeling abilities.

Why would we not use them? What could be more natural, when one possesses them! Is one astonished by the talent of a great virtuoso, be it on the piano, violin or any other instrument?

With regard to 'the Uplift'*, it is personal for all of you. Each one of you will interpret this formula in your own way. It corresponds to the wish of your heart; focus on it, if it is suitable for your evolution.

What more can I tell you today? Let each day be special, while similar to all the others.

May faith grow in you and strengthen you.

Babuji

[*The Uplift is the series of messages received from Nov 1, 1999 to Jan 26, 2000.]
