Whispers from The Brighter World

Monday, December 13, 1999 – 8:00 a.m.

Yes, Lord Krishna is a great avatar, considered as the eighth incarnation of God Vishnu. He has always guided the Mission from the beginning. He is quoted in my autobiography, very often. He inspired me in many circumstances, and on the advice of my Revered Master I used to call on him and ask for his help.

It is good to know, in broad outline, the history of this hierarchy, of the great beings who guided our steps from the beginning of the creation of our Mission. It was not easy and we did not know where we were going. Their encouragements were precious.

Buoyed by their Love and judicious advice, it took shape, little by little, to become what you know today.

This action was planned for a long time, with the desire to help modern-day human beings. In a world that's a bit mad, they have trouble finding their bearings as all the old and traditional values are breaking down.

Sahaj Marg is a gift from the Divine to help human beings find their way back – a way marked out and illuminated, that should change their lives completely.
