Whispers from The Brighter World

Tuesday, December 14, 1999 – 8:00 a.m.

The foundations of the Mission are solid. The greatest beings have pondered over its creation. They inspired in us the development of a simple practice suited to this time and a teaching accessible to all, thanks to its diversity.

It differs a little now; it adapts to the current way of life.

We need to move faster, be more concise and remain at a level that everyone can understand. By being accessible to everyone, it touches hearts more easily. More esoteric writings are available for those who are interested. It takes all kinds to satisfy the greatest number. There is great diversity among our aspirants; we must take this into account.

Even if the truth can be expressed in a few words, it sometimes takes many of them to make our brothers and sisters aware of this reality. We must touch various facets of their minds, and multiple means of expression are needed to achieve this result. Everyone, through different paths, wends their way to this heart so often mentioned – the seat of the soul, the holy place in your body where, ultimately, all your attention must be directed.
