Whispers from The Brighter World

Saturday, January 1, 2000 – 10:00 a.m.

Look back at your lives and see what you are now, given the path you all have travelled in our company. Would you like to go back? We don't think so. You trust us and this fact alone propels you ahead. We take into account your deepest aspirations, we don't violate hearts. We are moved by your efforts and we support them. You all have a great opportunity, that of having a living Master. His role is important; he acts in your world, in matter, and his action makes ours materialize. Know to appreciate his divine person, his mission on Earth, where he has returned to help you. He is active, he is great and fulfils our expectations. His task is heavy, and he is not always understood. He sometimes has to crack down and make painful decisions, but that is part of his job. Love him unconditionally, even if you don't always understand his reactions and his acts. What he does is for your good, and his spiritual being is connected to ours, which are divinely guided.
