Whispers from The Brighter World
A Fourth Revelation

To follow up on what we have said yesterday, there is nothing to suppress in these messages. In the future, before deleting and eliminating what you will deem superfluous, ask your heart, calmly, before doing anything. There are often answers to the questions you ask yourselves, or to the comments you exchange with others. As for what you are writing, you are doing it under our impulse in a state where you are spaced out; all has its raison d'être.

"Read again my autobiography. How do you react when reading certain passages? You have to learn to read between the lines and to put yourself well into the situation; otherwise you will find them insignificant, even uninteresting.

"For anything relating to spirituality, do not stick to the intellect. Use it the least possible. Try to grasp inwardly what emanates from the lines you read. Learn how to decode certain signs which you cannot detect immediately. Use your inner eyes; they will help you to seize well all the nuances.

"Throughout your lifetime, you have learned how to function and react according to the education, the academic background you have received. You have been under the influence of your pervading environment. Try to interiorise yourself and to develop another way of seeing, of understanding, and of seizing that which has often escaped you. Be vigilant, and a sixth sense, outside the social frame, will help you to have a more correct approach to things."
