Whispers from The Brighter World

Sunday, July 21, 2002 – 10:00 a.m.

Extend the Love that's inside you to all around you. This remedy is unique and the only one that can change the world. On a large scale, its power is unequalled. In coming times, it will manifest itself in all its glory. God is love, its vibration is His emanation; nothing can be compared to it. This speech can seem unreal and improbable to non-informed readers, yet it is the exact truth; everything revolves around this cosmic truth.

Love is the secret weapon which, when the time comes, will come as a liberator to settle the fate of humans in a sad situation. This concept is not easy to understand, even for a heart open to its effects. Humans, however advanced they may be, do not access during an incarnation the great secrets which govern not only this world, but also the whole of creation.

They must pursue their journey, with utmost faith and confidence in the divine laws, which in spite of appearances, are just and good. They should always turn more to God; whether they believe it or not, there lies their salvation.
