Whispers from The Brighter World

Thursday, July 1, 1999 – 10:00 a.m.

Be confident, my child, confidence is essential in all things. Confidence and faith cannot be dissociated.

We do not ask you to be saints, to be perfect, only to lean towards this state.

We are like attentive gardeners who, in a greenhouse, watch over rare and precious species with love.

You cannot imagine how much love it takes to bring you to perfection, the worries this entails.

We love to see you all progressing and determined to succeed; it is our reward.

When a soul advances on the path and we bring it to the goal, it is a very great joy for us all.

We will not go any further today; we do not want to tire you.

Only know that our union of hearts will persist throughout the day and even beyond.

Be at peace.

Babuji
