Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Monday, March 4, 2013 – 10:00 a.m.

The entire hierarchy of Masters is attentive to this beautiful spiritual Mission of Sahaj Marg. They support its ascension and approve its teaching, adapted to current and future times.

Clarity is necessary in everything. A large number of humans accept the truth about the reality of a life, about the fact that an elsewhere exists with different planes and levels of consciousness, accessible to beings according to their personal evolution. This world of the Spirit is vast and multiple in its effects. The Earth is a planet like many others, some less evolved and others at levels that humans cannot imagine. They are not alone, as many still believe. Reality will one day gain a foothold in this world, out of necessity in the face of human distress to a point unimaginable today. That is not for tomorrow, our abhyasis can rest assured.

The divine plans are designed for the long term, which is the case for the above. However, it is useful to be reminded here that Earthlings don't have the status they believe they have; they are not unique – far from it. Very evolved beings exist elsewhere, in a configuration of very different planets where life in all its amplitude is striking in its truth and purity at all levels. Human beings still have a lot to learn in terms of their behaviours and way of being, with respect to the divine reality. They ignore it in its original subtlety, in its power of action, multiple in its effects and its diversity. We do

not mean to bewilder our abhyasis; time will take care of advancing their understanding of phenomena.

May all our abhyasis progress – this is our wish – and be enlightened as appropriate at this stage of evolution on Earth.

Special blessings to all.

Babuji Maharaj
