Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Sunday, August 12, 2012 – 10:00 a.m.

Many of our brothers and sisters are now awaiting this message of the day. A very good initiative from their Master, our great Parthasarathi. It makes them feel closer to him, to the current affairs of the Mission, in these troubled times, with the trials he must endure, in accordance with the laws of this world where no one is spared, not even the spiritual Great Beings. In spite of all this, his action continues unabated and with great acuity – such is the hallmark of Masters of this nature in this world. Everything is being settled harmoniously for the future of our Mission; the number of abhyasis is increasing, in line with plans made long ago. The Mission is structured over the years and is producing the desired impact, to bring to humans what many are looking for, even if the waiting is unconscious for them, as things currently stand. We have already said that, seeing only the beautiful, the great, in our path is constructive, and the forces of good are working to that end. May the best happen for all our brothers and sisters on this path of life, ennobled by this approach, which is personal and edifying for them. Let trust reign; peace and harmony will then ensue within our Mission. A spiritual Master expects from all committed beings fidelity and perseverance in the conduct of their practice; thus will Sahaj Marg continue on its

course and flourish on a human level, for the good of each and every one, with our very special blessings.
