Whispers from The Brighter World

A Fourth Revelation

Friday, December 3, 1999 - 10:00 a.m.

My dear daughter, I know it well, your feelings towards me are sincere, deep and selfless. They have always been so, which, along with other reasons, makes our relationship very special.

"You give without expecting anything; it is a rare attitude which we do appreciate.

"Our contacts have become easier and easier with the passing years; we can even say that the channel is permanently open. You are 'our' medium and this relationship leaves you with the greatest humility. We hope to be able to still continue for some time.

"You have always used this gift for the good of your fellow man without getting any personal benefit from it, except for the gratitude of some of them.

"It is high time, at the dawn of the third millennium, for people's minds to open up and for a greater number to believe in this kind of communication with the beyond.

"Evidence will be given to men of the future; they will have to accept the obvious. Materialism will subside; humans themselves will be refined in their perceptions, which will facilitate things. True mediums will be listened to and recognised, which is currently far from being the case. Evolution on the Earth is taking place slowly, according to the laws of its own karma."
