Whispers from The Brighter World

Sunday, February 6, 2011 – 10:00 a.m.

Don't forget that life is one, indivisible and eternal. Life feeds on life, at all levels of creation. Respect must be shown for all created forms. The different species feed upon one another – on the divine essence, as well as on the materialized form.

This energy is salutary, creative in its divine principle; it gives life and takes it back. There lies the eternal movement inherent in this world.

Humans consider themselves to be the supreme leaders, and their actions show it. Yet they are mere instruments, neither more powerful nor more immune to the divine laws than what they call the 'infinitely small'.

May all human beings become aware of their smallness in the face of heavenly power and behave without losing sight of this reality.
