Whispers from The Brighter World

Friday, October 19, 2001 – 8:00 a.m.

You know the importance we attach to love, what is easier to do than to give love? The principle is simple: the more one gives, the more one receives. When the source starts flowing, nothing can stop it whatsoever.

Keep this picture in mind; it is symbolic in more ways than one.

We have given all of you food for thought in these last few messages. By degrees, we lead you to consider the relative importance of an incarnation vis-à-vis the grandeur of creation; it must nevertheless be regarded respectfully. Life, in its smallest manifestations, is a blessing. The smallest cell of your body has its own importance since it is dependent on the Whole, on this energy emanating from the Divine.

Feel constantly connected to this sublime source that gives you life, in terms of its noblest and greatest aspects. You are each a tiny speck in an ocean of love, so make sure that you also become Love.
