Whispers from The Brighter World

Wednesday, March 8, 2000 – 10:00 a.m.

Let your heart sing, this hymn to love is the most beautiful. A creature praising its Creator, it is in the order of universal harmony. What is good for human beings must be able to express itself freely.

Beyond the ugliness of life, there is this universe of purity, which they can access in their spiritual quest, never ceasing to search for the perfect union with the divine presence that dwells in them.
