Whispers from The Brighter World

Sunday, March 12, 2000 – 8:00 a.m.

Our presence in you is as one; we retain our individuality but are one and the same spirit, and it is this spirit that lives in you.

Our vibrations are unified and form a whole, a powerful one.

We act for the good of the worlds, yours and those beyond where there is no perfection either. There is work to be done so that harmony can reign in the universe one day. The objective is peace, which must be achieved through purification. Creation was perfect, it's the creatures that are no longer perfect. The proliferation of created species has not gone in the right direction. Great and beautiful souls are finding their place in these worlds of madness and are working towards the universal balance.
